

HOW TO DETERMINE CORRECT "TOP HUNG" PATIO SCREEN HEIGHT TO FIT YOUR OPENING

IMPORTANT:
Sampling is suggested before ordering large quantities of screens to verify fit and compatibility

**SUBTRACT 1 1/2" FROM THIS
SCREEN ROUGH OPENING
HEIGHT DIMENSION TO
DETERMINE ACTUAL SCREEN
HEIGHT TO ORDER**

**(MEASURE FROM POINT WHERE TOP
TRACK WILL BE INSTALLED TO TOP
OF LEG AT BOTTOM SILL)**

NO SCALE

NOTE: THIS SIZING METHOD SHOULD WORK IN CASES WHERE TOP TRACK NUMBER OP-007 AND TOP HUNG ADAPTER NUMBER OP-005 ARE USED, WHILE ACTUAL SCREEN FRAME USED MAY VARY FROM THAT SHOWN. HOWEVER, IF YOUR DOOR OPENING CONDITIONS VARY FROM THOSE SHOWN, THIS METHOD MAY NOT PROVIDE ACCURATE SCREEN HEIGHT. PLEASE CONTACT RITESCREEN FOR ASSISTANCE WITH OTHER TYPES OF CONDITIONS.
